

# Moorsafe-anchor<sup>®</sup>

a safer and environmental-friendly mooring

Moorsafe-anchor<sup>®</sup>

**The strongest anchor ever  
with an unique anchor  
design**

Moorsafe anchors have superior holding power even in hard sand and clay seabed

Moorsafe 30 kg. Rec. price 5.900 SEK

Moorsafe 72 kg. Rec. price 12.900 SEK

A 30 kg Moorsafe anchor is stronger than a 3 000 kg concrete block mooring.

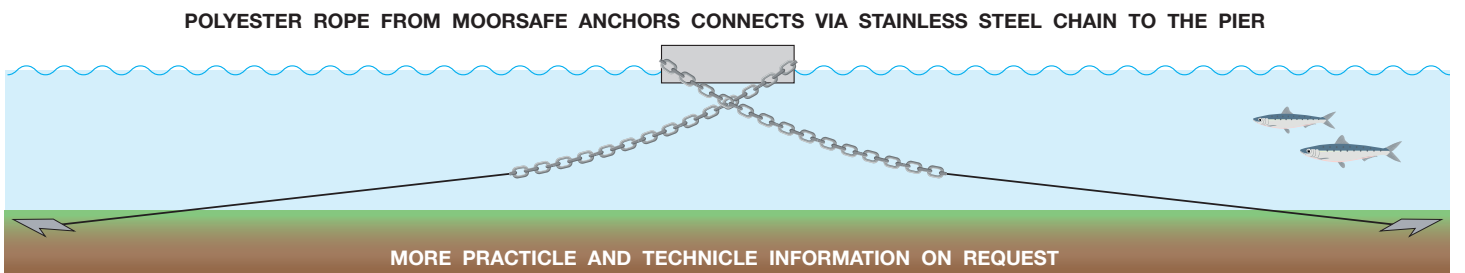

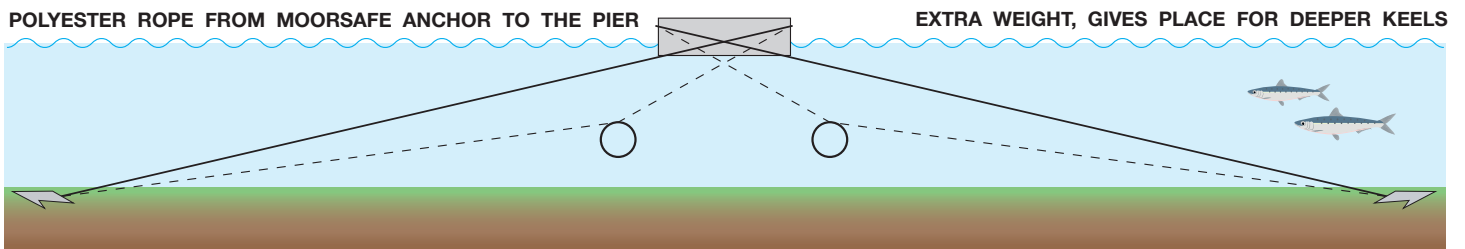

72 kg Moorsafe anchor is stronger than a 10 000 kg concrete block mooring.

Watch the video and the anchor tests on [www.moorsafe.com](http://www.moorsafe.com)

Mooring of floating piers with Moorsafe & polyester rope with 25 years of troublefree anchorage means a 70% less cost and 80% reduction in CO2 emission, in comparison with anchorage using concrete blocks and galvanized chains that rusts away.

And Moorsafe will exempt you from any anchorage problems and environmental shame.

We have all you need for a safe and environmental-friendly mooring.
